

149-339 NPO

DeafNative Theatre aims to unearth artistic talents of Deaf artists, harmonise theatre accessibility and discover Deaf community's social memes through the arts and social dialogues.

It is also aimed at contributing to job creation within the performing arts industry by identifying, developing and employing Deaf artists.

This will provide a meaningful and constructive contribution to inclusive development and social cohesion as a substantial step towards linguistic equality and inclusive society. This will lend credence to the belief that culture can change society

The upshot will be a mobilized Sign Language community able to take pride in itself and producing role models of dramatic theatrical successes and artistic leadership in the Deaf community
